

e-Pay

The monthly bills to ProLan can be directly paid using the e-Pay service through every computer connected to the Internet

Advantages of paying through www.ePay.bg :

- no additional service fee
- round-the-clock accessibility
- You save time paying directly from your personal computer
- Your payment effects in real time in ProLan`s system enabling you to use the services within the next 5 minutes

In order to use the e-Pay service you need to do just once the following steps:

- I. Open in your Internet browser the website www.ePay.bg . Click “Sign up” to open an account.
- II. Register the details of your credit/debit card (according to the instructions of ePay.bg you will be asked only once to verify the authenticity of your card through an ATM)
- III. Register and add to your e-Pay account monthly bills payment for services rendered by ProLan, easily following these steps:
 - Log in your ePay account
 - Follow these steps:
Bills payment > Register a new utility bill
 - Choose ProLan company from the list of “Internet and VOIP services, Domains, web hosting and design” and select “Registration”
 - Enter your personal client ID number in the menu (you can obtain it calling ProLan`s direct telephones, from ProLan`s pay-desks or from the receipt for your last payment)

After you have successfully completed the registration as stated above in p.III you can affect monthly payments directly from your computer from your ePay account following:

Bills payment > Pay your pending bills
